Storm Stories

By 1/2H

During the storm power went off. I played Monopoly Junior, UNO and the Simpson’s Cluedo. Then I looked outside. Then the power went on. Then I played outside.

During the storm I stayed at home. My dad got the generator out because the lights went out. I played dominoes and I played cards.

On the storm I stayed home and it was very windy. The storm was very scary. I could not watch TV. Blake came over. I loved it. The power went out because the electricity lines got damaged. Then they were fixed. We had power again.

During the storm it rained and we had a flood. Taj played in the water. I stayed in bed. After the flood we swam in the dam. It was fun.

Today Mum and Dad are cleaning up.

The Storm

On Tuesday morning the power at my house went out. We found out that the school was closed so me and my sister had to stay home. At 10 o’clock Mum came home from work and said that Mt View was closed too. During the day it got darker and darker.

At dinner time we still had no power so we lit a lot of candles. The next day we still had no power. We wanted to go into town but we couldn’t because we had floods every way we wanted to go.

During the days we had no power we slept and talked to each other. It was very boring. When it wasn’t raining I took my dog for a walk. When I got back my dog and I were both muddy.

On Wednesday, when we got back from my grandma and grandpa’s place, the power was back on.

By Thursday morning it had stopped raining and the wind wasn’t very fast. We found out school was on and got ready.

The Storm

On the first day of school I was hoping school would not be on and I was right. My power was off for more than a day. Mum and I started to do a jigsaw puzzle. It was pretty hard!
The next day I was trying to go outside because it was so wet. Mum and I went to Woolworths to get some stuff like milk baked beans and other things. When we got back home Mum wanted to go for a drive. There were trees on a house and floods everywhere.

When we got back home the power started to come back on.

The Storm

During the holidays there was a giant storm. Some houses were wrecked by trees. All of Ellalong had no power. There were smashed windows and houses.

My uncle came over and asked if we wanted to go to his place, so we went over and they ordered pizza.

Then our neighbour messaged Dad to say that the power was on.

The Storm

During the holidays we had a big storm. It kept raining and raining. There are big ditches across the road. All the water came into our yard and into our creek. All the water came up to our back step.

We had a massive blackout so we got take away. All our food went off so Mum has to buy more.

Super Storm

On Tuesday a super storm hit the Hunter Valley. Campbell Street went under water as well as Ellalong Farm and Congewai. My dad and I went for a drive just to get phone cover. To make dinner, we had to get out a gas cooker and make a toastie. We got out our generator so we could watch TV.

The Shark Bite

A few weeks ago, on the weekend, I went to the Shark and Ray Centre. The first fish I saw were two eels, one sand ray and two lionfish.

We had to put on suits. After that we touched and fed some rays. There was also a shovel-nose ray. We had to feed them prawns and squid. We fed them with feeding sticks. There were pegs on the end of the sticks.

Next we went into a pool with a 2.7 metre shark. His name was Fluffy and he was pink. We also saw a barramundi and a leopard shark.

After that I went into a pool with rays and Port Jackson sharks. When I was feeding another shark, one bit me. The person who gave out food told me to wash my hand in the water.

Finally, I went into a pool with a 125 kg ray and I got to pat it. It nudged me on the face. I learned some facts about the ray from our tour guide.
